

Need Urgent or Emergency Care?

When something just doesn't feel right, and you wonder if going to the emergency room is your best option...

CALL US FIRST!

Call your doctor's office — even after hours — and we will help you determine what care you need: **1) Doctor's appointment 2) Urgent care 3) Hospital-based ER**

Making the right choice can save you time, hassle and money.

A New West physician can be reached 24/7, 365 days a year.

Urgent care conditions include:

- Sprains and strains
- Fever
- Severe sore throat or cough
- Urinary tract infections
- Minor cuts or bleeding which require stitches
- Skin rashes
- Eye redness or irritation
- Vomiting or diarrhea

Emergency or life-threatening?

If it's an emergency, call 911 or go to a hospital-based emergency room*. These are fully integrated systems that have all the necessary equipment and specialists under one roof.

*Your doctor knows you best. We are dedicated to helping you get the right care, at the right time, at the right place, and for the right price. If it's not a life-threatening emergency, **Call Us First!***

*If convenient, choose one of our preferred hospitals where a New West Physician hospitalist will guide your care in collaboration with your PCP: Lutheran Medical Center, St. Anthony Hospital, Porter Adventist, Swedish Medical and Littleton Hospital.

Free-Standing ERs
Don't be fooled!

Avoid free-standing emergency rooms. They are equipped to receive patients with serious illness and injuries, but they may not offer all of the services of a hospital-based ER.

Average cost of an ER visit is 10 times higher than the cost of an urgent care visit.
