

We put your health first

TRANSPARENCY IN HEALTH CARE PRICES ACT

Colorado law requires our providers to disclose the price charged most frequently in the past year for the 15 most common health services provided by New West Physicians' offices. The prices that you see below are only an estimate of the actual charges for the health care service. All final pricing will depend on many different factors including the circumstances at the time the service is rendered, negotiated rates with your insurance company, and negotiated payment options with our billing office.

If you are covered by health insurance, you are strongly encouraged to consult with your health insurance company to determine what your financial responsibility is for a specific health care service provided by any of our doctors.

While this required price disclosure list may reflect examples of a range of pricing for different services, these do not represent the exact amounts paid for such services every time. The actual amounts paid by insurance companies or by individual patients may vary from this list, either up or down, depending of the unique circumstances.

If you are not covered by health insurance, you are strongly encouraged to contact our billing office at (303) 763-4900 Option 3, to discuss your payment options prior to receiving a health care service from any of our providers.
