CORHIO Patient Notification

New West Physicians endorses, supports, and participates in electronic Health Information Exchange (HIE) as a means to improve the quality of your health and healthcare experience. HIE provides us with a way to securely and efficiently share patients' clinical information electronically with other physicians and health care providers that participate in the HIE network. Using HIE helps your health care providers to more effectively share information and provide you with better care. The HIE also enables emergency medical personnel and other providers who are treating you to have immediate access to your medical data that may be critical for your care. Making your health information available to your health care providers through the HIE can also help reduce your costs by eliminating unnecessary duplication of tests and procedures. However, you may choose to opt-out of participation in the <CORHIO> HIE, or cancel an opt-out choice, at any time.
